

3M™ Comfort Grip Gloves

Data Sheet

January 2020

Product Description	3M Comfort Grip Gloves offer a comfortable alternative to the traditional cotton and leather work glove. The gloves are designed to offer a comfortable, breathable fit and are perfectly suited for applications where hand flexibility and dexterity are needed. The coated palm provides gripping ability in wet or oily applications. The Comfort Grip Cut Resistant gloves are an excellent choice for applications when working with sharp tools or edges. The 3M Comfort Grip Winter Gloves helps keep hands warm in colder climates.

Handling & Safety Precautions	Read all Health Hazard, Precautionary and First Aid statements found in the Material Safety Data Sheet (MSDS) and/or product label of chemicals prior to handling or use.
--	---

OSHA 29 CFR Part 1910:138 Personal Protective Equipment: Hand Protection, states that employers shall select and require employees to use appropriate hand protection when employees' hands are exposed to hazards and shall base that selection on an evaluation of the performance characteristics of the hand protection relative to the task(s) to be performed and duration of use.

Disposal

After the glove has been used it may be contaminated with infectious or other hazardous materials. Please dispose of according to local regulations.

WARNING! To reduce the risks of electrical shock:

Do not use on live electrical circuits.

To reduce the risks of cut or mechanical impact:

Do not use when there is a risk of entanglement or near moving machinery.

Note: Although the Comfort Grip Cut Resistant Gloves are cut resistant, they are not cut or puncture proof. Do not subject to high-speed or serrated blades.

To reduce the risk of burns:

Do not expose to open flames or sparks. Gloves are not flameproof or fire retardant.

CAUTION! To reduce the risks of cut or mechanical impact:

Discard and replace the gloves if they become damaged in accordance with local work practice or regulations.
